

## Task 5: Leadership Style Feedback

The aim of this task is to raise awareness of leadership styles and personal impact on others by applying relationship intelligence theory and using the SDI as a framework. There are three steps as follows:

1. Read the guide on SDI Leadership Styles that accompanies this worksheet.
2. Complete the questions below about your team leader's style using SDI language where possible to provide shared references with your team leader.
3. Return your completed worksheet to your team leader.

When every team member has completed the task, the team leader will compare it with their own assessment of their leadership style and decide what action to take.

Name:	Date:
Team:	My Leader's Style: (use SDI language for reference)

Something I appreciate about my team leader's style and how it positively impacts on me:

Something I would like my team leader to do differently and how this would produce a better outcome:

Something I do, that contributes to this style of leadership from my team leader:
